6

Each ambulance service operator shall adopt and implement medical protocols developed and approved in accordance with K.S.A. 65-6112, and amendments thereto. The medical protocols shall be approved annually. Each operator's medical protocols shall include a table of contents and treatment procedures at a minimum for the following medical and trauma-related conditions for pediatric and adult patients: (1) Diabetic emergencies; (2) shock; (3) environmental emergencies; (4) chest pain; (5) abdominal pain; (6) respiratory distress; (7) obstetrical emergencies and care of the newborn; (8) poisoning and overdoses; (9) seizures; (10) cardiac arrest; (11) burns; (12) stroke or cerebral-vascular accident; (13) chest injuries; (14) abdominal injuries; (15) head injuries; (16) spinal injuries; (17) multiple-systems trauma; (18) orthopedic injuries; (19) drowning; and (20) anaphylaxis. Each operator shall make available a current copy of the ambulance service's operational policies or guidelines and medical protocols to any person listed as an attendant and any other health care provider on the ambulance service's attendant roster.

NC-C C NC N/A

7

If an operator's medical protocols or equipment list is amended, a copy of these changes shall be submitted to the board by the ambulance service operator within 15 days of implementation of the change.

NC-C C NC N/A

8

Each operator shall maintain a daily record of each request for ambulance response. This record shall include the date, time of call, scene location, vehicle number, trip number, caller, nature of call, and disposition of each patient. K.A.R 109-2-5(n)

NC-C C NC N/A

9

Each operator shall ensure that documentation is completed for each request for service and for each patient receiving patient assessment, care, or transportation. Each operator shall maintain a copy of the patient care
